

## GETTING STARTED WITH DATA LICENSING (IDX & VOW)

**Do you want to have MLS listing data on your website? If so, you need data licensing. HiCentral MLS offers multiple options.**

1. Determine whether you want a data license for an individual or a brokerage.
2. Select a technical consultant. We recommend an experienced IDX solution provider (IDX vendor).
3. Work with your consultant to decide which type of data feed and data license best suit your needs:
  - **IDX framing solution from Matrix™** - A basic search engine directly linked to the MLS system, allowing visitors to your site to search for active listings.

**Setup Fee: None**  
**Monthly Fee: None**

- **IDX Dataset** - A limited dataset of active and in escrow listings including agent, office, and open house data.

**Setup Fee: \$75.00**  
**Monthly Fee: None**

- **IDX Plus Dataset** – The IDX dataset plus three (3) years of sold information.

**Setup Fee: \$75.00 + first two months**  
**Monthly Fee: \$25.00**

- **VOW Dataset** - A full dataset including all statuses and data fields. History information is available back to 2012.

**Setup Fee: \$75.00 + first two months**  
**Monthly Fee: \$75.00**

**4.712% GET will be added to all fees.**

**Detailed pricing information is on the Participant Data Licensing Request Form.**

4. Submit signed Participant Data Access Agreement (Access Agreement) and Participant Data Licensing Request Form (Request Form) to HiCentral MLS.
  - Required forms are available at <https://members.hicentral.com/index.php/mls/mls-forms> under the IDX and VOW section.
  - To display IDX listing data, you must sign an Access Agreement.
  - If you are a licensee or independent contractor affiliated with an MLS Participant, the firm's Principal Broker or Broker-in-Charge must also sign the Access Agreement.
5. Once your forms are received, HiCentral MLS will send you an invoice for the startup costs. Please allow 3 to 5 business days for processing.
6. Upon receipt of your payment, you & your technical consultant will receive approval to proceed.
