

OneHome

Benefits for Agents

Top Ten Reasons Agents Love OneHome

1. CoreLogic provides the most powerful and feature-rich multiple listing ecosystem available in the industry, now integrated with marketing services portals that enable faster, more intuitive ways for you to help your clients.
2. OneHome's updated look and feel is what clients are used to seeing in other modern platforms.
3. OneHome delivers the latest property data, faster to your clients.
4. Your clients will know that they are getting the most up to date information available.
5. Texting will allow you to get property data to your clients – anywhere, anytime and in the platform that makes sense for them (text and/or email).
6. With lightening speed communication with clients, you can build your business faster by reaching more consumers with accurate data on their phones.
7. If you opt-in to Marketplace in OneHome, you can suggest your preferred vendors for mortgage, insurance home improvements to consumers – making OneHome a one stop shop for your client's real estate needs. Should you not want to participate in Marketplace, you can easily opt out.
8. OneHome's planner offers a step by step guide through the buying or selling process so everyone knows what is next and you eliminate stress and confusion for your clients.
9. All listings in OneHome include personalized market insights, livability scores and mortgage calculators to create an easy, safe and seamless experience.
10. Homebuyers can score property preferences to match them with their dream home.

Benefits of OneHome vs Old Client Portal:

- OneHome has a Planner, Marketplace, and Property Fit Score which is a big and innovative improvement over the old Client Portal.
- The onboarding process using Fit Score, helps to make clients more engaged in the homebuying process.
- Homebuyers have the option to schedule a tour of a property in OneHome.
- OneHome has similar homes at the bottom of a listing screen in a full view.
- OneHome's Walk, Bike, and Transit scores are fabulous additions that give the consumer a real insight into a neighborhood.
- OneHome's incorporation of Nearby Schools on property details is a great new feature in keeping with data available on our other offering.
- Multiple pop ups allowed at once for points of interest.
- Interactive Demographics charts are well put together informational data that consumers will find useful to learn more about a neighborhood.
- Deep links for mortgages and renovations add value.

***None of these features were available in the Old Client Portal.**
